

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Raiffeisen fond optimálního rozložení, otevřený podílový fond, Raiffeisen investiční společnost a.s** (hereinafter the “Fund”)

Class A1 - Capitalisation	Class A2 – FWR MULTI ASSET 2	Class A3 - Premium
ISIN: CZ0008474731	ISIN: CZ0008474749	ISIN: CZ0008474756

The Fund represents a special collective investment fund.

The Investment Company that manages the Fund (the Management Company): Raiffeisen investiční společnost a.s., Registered Number (IČ): 29146739 (hereinafter also the “Company”).

### OBJECTIVES AND INVESTMENT POLICY

The characteristics of the Fund are that of a mixed fund. The Fund invests in various types of assets on various markets, primarily in money market instruments, bonds or similar securities (Government or corporate bonds, and/or other securities accepted for trading on a regulated market or another market approved by the Czech National Bank) and their derivatives (40 – 100 % of the Fund assets), in equity and commodities and other instruments bearing equity risk, or commodities and their derivatives (0 – 60 % of the Fund assets) and foreign currencies. The Fund applies derivatives for the purposes of implementing its investment strategy. Other funds’ units may form up to 100 % of the Fund assets. Decisions on the Fund investments are regulated by the internal quantitative model.

The Fund does not concentrate on any specific industrial branch, sector or region. The performance of the Fund is measured in CZK. The Fund represents a capitalisation fund.

The Fund does not intend to copy or follow any specific index or benchmark. More detailed information is available in Chapter 8 of the Fund Prospectus.

The Fund issues various types of units designated in short as A1, A2 and A3 units. More specific information on the various classes of the share certificates will be specified in the CHARGES section of this statement and in Chapters 12 and 14 of the Fund Prospectus.

Fund units are issued and redeemed usually on each business day for the current value set in accordance with the Fund Prospectus. Further information about unit issues and redemption is specified in Chapter 13 of the Fund Prospectus.

Recommendation: The Fund may not be suitable for investors planning to recover their invested pecuniary funds within a term shorter than five years.

### RISK AND REWARD PROFILE

← Potentially lower reward			Potentially higher reward →			
← Lower risk			Higher risk →			
1	2	3	4	5	6	7

The Fund is placed in Risk Group 3.

The Synthetic indicator 1 to 7 takes into account the fluctuation of the value of the units and shows the potential reward of investments in relation to the degree of risks inherent in the Fund. The higher the number, the higher the potential reward but the less foreseeable the reward, and investors could therefore suffer a loss. However, even the lowest number does not mean that an investment is entirely free of any risk; it rather indicates that in comparison to higher numbers the investment offers a lower but more foreseeable reward.

In view of the date of the establishment of the Fund, the actual historical values of the Units cannot be used, so the

calculation is based on modelled trends derived from the expected placement of assets. The indicator value was determined based on historical information, which is not always a reliable guide when it comes to the future risk profile of the Fund. The risk and reward indicator is regularly re-assessed and its value can fluctuate up and down.

The risks to which an investor is exposed when investing mainly comprise market risks, currency risks, credit risks, and risks of insufficient liquidity.

The value of investments can rise and fall. No return on such investments is guaranteed. More detailed information is available in Chapter 9 of the Fund Prospectus.

The determination of historical performance is based on the Fund net asset value and on the assumption that all Fund yields will have been re-invested.
